Council President Keith King's Statement Regarding City Attorney Chris Melcher's Resignation

I want to thank Chris Melcher for his service to the City of Colorado Springs and wish him and his family the best. I understand the challenging role of being an attorney for multiple clients, especially when it is a new form of governance. Council is willing to work with the Mayor to help find a new City Attorney. Public service is very demanding and I understand why someone would want to limit their service. I again wish Chris and his family the best through this transition. I look forward to working with the next City Attorney to keep the City moving forward and accomplishing great things for its citizens.
